Maybe even better than free.

Any file in any format can be uploaded and downloaded for free. Our service is completely free for everyone. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. The cost of that data transfer is covered by your internet service or the data plan on your phone. Just upload the file you want to share with your friends and we send you a download link to your file. There are no restrictions on the number of times a file can be downloaded. Files can be downloaded from any computer from our high speed servers. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer orphone and our servers, then from our servers to your friends device. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventuallycosting you money in data storage fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want toshare your files with. Unfortunately, we can't make that part free. No account or credit card is required to get started. You don't need any special softwareinstalled to be able to download your files. If only we could, we surely would! On the other hand, using file can actually save you money. So try our files or and single or mail server. We have no file size limit. You can upload any type of file (movies, music, documents, images, zip files and more). filehosting provides an easy possibility for you to send large files to your friends. Alternatively you can choose to share your download links on blogs, forums and social networkingsites. Simply upload your file and share the link. Keep your files private, or send your download links on blogs, forums and social networkingsites. Simply upload your file and share the link. Keep you files private, or send your download links only to friends service. You can give this download l
